KEY SOLUTIONS
Comprehensive IT for Research

Empowering Preclinical and Clinical Research with AI/ML Technologies

- Efficient Protocol Tracking
- Nuanced Protocol Insights
- Find Funding Opportunities Faster
- Protocol Approvals Without Delay
- Better Protocol Compliance
- Enhanced Animal Welfare

AI/ML Solutions
Empowering Your Expertise

Protocol Management
Research Insights, Efficient Protocol Development, Swift Approvals, Better Compliance

Advanced Data Visualization
Clear Intuitive Visualizations, Actionable Insights, Better Decision Making

Enhanced Grant Discovery
Find Opportunities Faster, Better Matching With Study/Protocols, Enhance Funding

Animal Facilities Management
Resource Optimization, Increased Efficiency, Cost Reduction, Compliance Confidence

Animal Health Management
Enhanced Animal Welfare, Improved Compliance, Enhanced Reputation, Reduced Costs, Higher Data Quality

Automation Assistants
Automate Tasks, Natural Language Initiated Insights, Knowledge base, Improve Efficiencies, Enhanced Collaboration

KEY SOLUTIONS
Comprehensive IT for Research

AI/ML Services
Building Intelligent Partnerships

AI/ML Strategy & Planning
Strategies tailored to accelerate growth, enhance efficiency, and foster innovation.

ML Maturity Assessments
Transform AI/ML challenges into growth opportunities with our targeted assessments.

Data Analytics & Infrastructure
Unify Silos, Automate Data Collection, Uncover Hidden Trends, Enable Predictive Analytics

Hosting Services

Optimal Performance, Reliability and Security (HIPAA, GDPR, SOC 2)
Private, AWS, Azure, Google Cloud

KEY SOLUTIONS
Comprehensive IT for Research

Unlocking Advanced Capabilities in Preclinical and Clinical Research
